

## Case History

# Car showroom gets 3 day prestige clean treatment

Rainbow Edinburgh received a call from a construction firm requesting an 'after-build' clean to a newly built 5500 sq ft car showroom for Arnold Clark, which was to be handed over within 5 days – quite a challenge but one the local team were more than prepared to accept.

However, the job proved to be even more of a challenge than was expected, following their initial visit they discovered that this was a little more than a simple spring clean. To achieve the desired results, no surface could be left untouched. To add to the challenge, building work would take a further 2 days, leaving only 3 days to complete the clean.

The Rainbow Rapid Cleaning team quickly sprang into operation. A scope and plan of works was organised to best utilise the skills of the teams along with the equipment required.

The scope of works included:-

- Soda Blasting of external walls
- External metal cladding required high level cleaning.
- Power washing was needed to clean the forecourt mono-block and tarmac.
- All glass panelling and aluminium frames needed to be cleaned inside and out including some at high level.
- Over 5000 sq ft of floor tiles were swept, vacuumed, agitated and cleaned using the high pressure truck-mount system.
- All office carpets were cleaned using the truck mount system
- All internal fixtures, fitting and furniture were cleaned by the cleaning team

## Key Facts

### Service

Builders clean

### Location

Scotland

### Services Employed

- Internal Building Clean
- External Building Clean
- Carpet Cleaning

The work was challenging but after some hard graft and long shifts the desired results were achieved in time. The very next day, the show room was launched and opened for business, to the delight of the construction site manager, who commented:-

"I was very pleased with the cleaning and I was particularly pleased with your fast reaction in mobilising your people to return and clear up the snagging. I have passed on your details to our buying department who I am sure will be contacting you in the future"

No challenge is too great for the Rainbow team... whatever the problem, Rainbow has a solution.
